Introduction

The Art of Invocation is in fact a science.

Invocation lies at the heart of the most new and radical spiritual approaches of the Aquarian Age, with its primary purpose being that of aligning altruistic group intention to the descent of highly spiritual energies directed in service to Humanity.

In this small literary volume featuring Maitreya, Etbonan Karta proffers twenty-one Invocations, each one conveying a veritable power to evoke a descent of the heart energy of Christ on Earth. Each word when purposefully pronounced, proposes and profiles a veritable path to Self Awakening, and stirs the Divine Energy that lies latent within each human being, thereby prodding an illumined awareness which will openly cognize and disclose the Door to the coming of Maitreya, the Christ who is even now, living among us.

It is suggested that a person invoke one or two Invocations of his choice per day. A clear, focused mind, free of any expectation and negativity, as well as striving to maintain an inner, mental unification with all individuals and groups who consciously work for the well-being of Humanity, are essential pre-requisites for an authentic effect to take place. And further keeping in mind is the importance of conscious constancy, which is without a doubt, the pass-key to the stable edification of an altruistic work such as this.

Let the Universal Wisdom of HE WHO KNOWS uphold your earnest wish to aid Humanity to act with a noble heart, during the world conflicts that presently prevail within the planetary atmosphere.

I humbly ask you to refrain from closing your eyes to the human suffering occurring in all parts of the world. You must act consciously and avoid turning a blind eye to what may seem to be out of your scope or beyond your capacity to act.

You must act consciously by uniting your hearts and your mental faculties in the recitation of Invocations which would permit the Divine Energy to incite a collective leap towards the opening of the heart chakra for the majority of the world population.

The Aquarian Declaration

(To Instill Unity, Harmony and Peace
Within a Group, a Nation, and the Whole of Humanity)

MAY WE AS HALLOWED SOULS recover our secret connection with Maitreya, the Living Christ.

MAY WE AS HUMAN BRETHREN renew our sacred bonds of Universal Brotherhood.

MAY WE OF THE PLANET EARTH be one day Now blessed as the Blue Diamond of our Glorious Galaxy.

MAY WE OF SOLAR FELLOWSHIP be indivisibly united under the Bright banner of Life and Love, Truth and Beauty.

MAY WE EARTHLINGS and all of our families blend tolerantly together as shining facets of the great Emerald Nation of "ONE WORLD FAMILY".

MAY WE OF THE ONE HEART be fused, fostered and fashioned under the Flag of Freedom... and tread, travel, and travail together in an enterprise of compassion, cooperation and courage.

MAY WE AS MEN AND WOMEN of imperfect clay and aspiring Spirits promptly forgive each other our trespasses, and help heal our hurts, and do all in our power to assuage both sorrow and suffering.

MAY WE AS DEVOTED, SPIRITUAL SERVANTS gladly serve GOD with all of our inspiration and strength, and give unto Him our daily gratitude and the beatitude of our Immortal Thanks.

MAY WE AS INCIPIENT CELESTIAL CITIZENS incessantly invoke the Lord's Name as child-to-Father, and call upon His Power to effect out of our humble bodies gleaming Garments of Light.

MAY WE AS TRUE AND TRIED DISCIPLES OF THE PATH share with both angels and men alike the Golden Joys of a Heaven brought down to Earth, (in this present Aquarian Age).

MAY WE AS INITIATES OF HIERARCHY bring to all sentient beings and to all of Creation the providential gift of a Deep Peace and the radiant blessings of an Incandescent Love.

In this small literary volume featuring Maitreya, Ethonan Karta proffers twenty-one Invocations, each one conveying a veritable power to evoke a descent of the heart energy of Christ on Earth.
